## YELLOW HAND THE WINNER OF MANHATTAN HANDICAP

## Racing Results, Charts and Baseball

### MANHATTAN WON BY YELLOW HAND; TRYSTER SECOND

Stoneham Entry Gets Feature Race at Fall Meeting Opening—Mad Hatter Third.

THUNDERCLAP IS FIRST.

Captures Opening Event—Nancy F. Gets the Tom-boy Handicap.

**By Vincent Treanor.**  
BELMONT PARK RACE TRACK, Sept. 2.—Yellow Hand won the Manhattan Handicap, the feature of today's program, to-day. Tryster was second and Mad Hatter finished third. Yellow Hand won by three lengths at odds of 5 to 1. Six horses started.

The Stoneham entry, at 5 to 1 in the final betting, won by three lengths. Frank Farrell's Nancy F. favorite in the oval wagers, won the Tom-boy Handicap from a good field of fifteen. She broke in front, as she usually does, had enough speed to move to the front, and stayed there under pressure to the end. Mary Patricia was second and Pedigree third.

Only three went to post in the steeplechase, Lyle opposing the Widener entry, Joyful and Vigilante. The latter pair were odds on favorite. Joyful made all the pace and won handily, but Lyle moved up close to him at the last jump. This move made those who had taken a short price on the favorites uneasy, but Joyful just enough to go on under a hard drive to beat Lyle half a length. Vigilante was never a contender, finishing three lengths back of Lyle.

Thunderclap was the winner of the opening event, but he had to run six furlongs in 1:19.45 to do so. He trailed off the pace set by Peter Piper and Routledge, then came to the outside at the home turn and galloped. Peter Piper opened up a gap of four lengths on Routledge in the first half mile, while the latter had three lengths lead on Thunderclap. After hitting the stretch Peter Piper tired badly and in the last sixteenth was beaten out of the place by Routledge.

### RACING RESULTS.

**AT DORVAL.**  
FIRST RACE—Five and a half furlongs—Lady Heart, \$6.90 and \$3.60, first; Troutling, \$1.50, second; Fancier, third. Time, 1:07.4. Non-starters—Fast Trial.

**GIRL STARTS SWIM OF 150 MILES FROM ALBANY TO N. Y. CITY**

Miss Gade, Danish Champion, Expects to Make Trip in Four Days.

**ALBANY, Sept. 2.**—Miss Gade, the Danish swimmer, started on her swim of 150 miles from this city to New York to-day. She was accompanied by a pilot in a rowboat and a trainer and nurse in a launch.

Miss Gade, who swam the forty-three miles around Manhattan Island in less than sixteen hours on June 26, expects to cover the distance to New York in four days, swimming sixteen hours a day. She carries a message from Mayor Watt of Albany to Mayor Hylan of New York.

Miss Gade, who holds the swimming championship of Denmark, is twenty-two years old. She has been in the United States about a year, and is instructor in swimming at the Young Women's Christian Association, New York City. She has been decorated by the King of Denmark for life saving, and is the possessor of a Carnegie medal. She is the granddaughter of N. A. Gade, a noted Danish composer, who for many years was conductor of the Royal Opera at Copenhagen.

The swimmer will have brief rest periods along the route. She will not go ashore at any point, but when leaving the water for a rub-down and a substantial meal she will rest on board the launch which is following her.

Her schedule for to-day called for four hours in the water, a rest, three more hours of swimming, and another rest. At 6 P. M. she will resume her trip with a seven-hour grind.

### JOHNSTON WINS OVER KUMAGAE IN DAVIS CUP MATCH

Californian Overwhelms Japanese Challenger at the West Side Club.

12,000 WITNESS PLAY.

American Plays Careful Game and Piles Up Points on Opponent's Errors.

**By William Abbott.**

**FOREST HILLS, N. Y., Sept. 2.**—William M. Johnston of San Francisco defeated Ichio Kumagae of Japan, three sets to love, in the first of the Davis Cup matches here this afternoon. The scores were 6-2, 6-4, 6-2.

**FOREST HILLS, N. Y., Sept. 2.**—Japan and the United States clashed in the challenge round for the Davis Cup, emblematic of the world's championship in tennis, before 12,000 spectators this afternoon at the West Side Club. It was the largest and easily the most colorful gathering that ever watched a tennis contest in this country.

The weather was oppressively hot. The three large stands were great white splashes, made by hundreds of male fans who quickly shed their coats after finding their places in the sun-baked grand.

The most conspicuous object was the huge silver Davis Cup that proudly rested on a table in the center of the court, a trophy that had travelled thousands of miles and was brought home from Australia last year. Japan earned the right to challenge for the cup after scoring six victories in the preliminary rounds and defeating Australia in the final at Newport.

The Far East team is composed of only two members, Kumagae and Shimidzu. Kumagae, a ranking player in America since his arrival in 1915, drew the opening assignment this afternoon when he met William Johnston of California in the first of five matches.

It was nearly 2:30 when the American defender, closely followed by his little brown opponent, stroled out from the club house and walked to No. 3 court.

Johnston took the second set, 4 to 2, started off by breaking through the Japanese service in the first game. He won the second and third games with a burst of speed. The Japanese rallied in the fourth and fifth games, which he won, but he immediately lapsed again and lost the set and the last three games.

Point score, first set:

## JOHNSTON BEATS KUMAGAE IN DAVIS CUP TENNIS MATCH

### FIFTH AVE. BANDITS ROB SHIP AGENTS; FLEE WITH \$600

Well Dressed Bandits Force Clyde Line City Agent and His Assistant to Back Room and Tie Them to Chairs.

Entered Office at 9 o'clock, Saying They Wanted to Buy Tickets—Overlook \$2,500 in Unlocked Drawer.

Two well dressed, soft spoken young bandits, armed with revolvers, held up the offices of the Clyde Steamship Line on the second floor of No. 439 Fifth Avenue, between 41st and 42d streets, at 9 o'clock this morning, bound and gagged R. H. Leonard, the city ticket agent, and Andrew Storm, his assistant, at 10 o'clock. They had been gone fifteen minutes when Mr. Leonard and Mr. Storm were found helpless in a back room by one of the clerks.

The two young men first appeared at the office yesterday afternoon and engaged Mr. Leonard in a lengthy conversation about their expressed intention of purchasing half a dozen steamship tickets. They were particularly anxious to accommodations, and finally decided that they would consult with other persons who were to be their travelling companions and return this morning to complete the transaction.

Mr. Leonard informed them he would be at the office at 9 o'clock. Promptly at that hour the two young men appeared. They said they had decided to buy tickets. Mr. Leonard turned to a rack back of the counter and removed the tickets. As he forced his supposed customers he looked into the barrel of a revolver. The other bandit reached over the counter and covered Mr. Storm, who was seated at a desk.

"Hands up, both of you!" commanded one of the men. "Now march into that back room. If you make a bad break we'll kill you!"

Mr. Leonard and Mr. Storm marched to the back room. There one of the pair pulled from his pocket a quantity of great value, with which he bought and dotedly bound the steamship men hand and foot and tied them to chairs. Then, predicting bandits, he gagged them. The bandits hurried out into the office, closing the door of the rear room behind them.

They opened one cash drawer behind the counter and removed \$600 in bills. In an adjoining drawer, which was unlocked, there was \$2,500. Mr. Leonard and Mr. Storm leaped the elevator step at the second floor right outside the door of the office a few seconds after the bandits left them. It is believed that they feared that some one was about to enter the office from the elevator and decamped without opening the drawer which would have made their robbery worth while.

At 9:15 o'clock a clerk entered the office and, seeing no one back of the counter, went to the rear room and found Mr. Leonard and Mr. Storm. Detectives were soon on the scene and took the steamship men to Police Headquarters to look over the Rogues' Gallery.

According to Mr. Leonard the men used good English and gave every indication of intent and ability to purchase tickets. In conversation with each other they referred to one "Mary" who was to be of the party travelling on the steamship, and it was ostensibly to gain an opportunity to consult "Mary" that they postponed the purchase of tickets until this morning.

### KRAUS WILL GIVING WOMAN MILLIONS IS HELD FORGERY

Referee Holds Mrs. Thomas Is Not Legitimate Daughter of Manufacturer.

SHE CONTROLS ESTATE. Charge Made False Sheet Was Substituted in Testament.

John Godfrey Saxe, referee appointed by the Surrogate to pass upon the legitimacy of Mrs. Adeline Thomas, daughter of Samuel Kraus, to whom the millionaire pencil manufacturer left three-quarters of his estate by a will which made Mrs. Thomas and her husband, Oscar B. Thomas, a lawyer of No. 280 Broadway, sole executors, reported to the Surrogate to-day that Mrs. Thomas is not the legitimate daughter of Mr. Kraus. While not called upon to make a report upon the validity of the will says:

"It is my positive opinion that the respondent, Oscar B. Thomas, forged the alleged will; that both the respondents (Thomas and Mrs. Thomas), intentionally testified falsely, and they frequently so accelerated the testimony of other witnesses that I would be fully justified in disregarding all such testimony."

The referee bases his opinion regarding the will upon the change in the character of the paper used in the first and second sheets of the will and the typewriting, and it is alleged that the first sheet was substituted years after the will was made.

He states that a will was drawn by Oscar Thomas for Kraus in March, 1912, and that it was copied upon paper with an old style Remington typewriter and that some time in 1918 or 1919 Thomas got a new Remington machine.

The first page of the will was then reprinted, according to the opinion of the referee, and the first page attached to the second page of the will and this was the will offered for probate after the death of Mr. Kraus.

When Bert Kraus, nephew of Samuel Kraus, filed his contest he asked for the removal of the executors. It was set up that the burden of proof was upon him, and while the testimony has been taken before the referee, Mr. and Mrs. Thomas have been in charge of the estate.

Summing up the testimony presented to show that there was a common law marriage between Mary and Oscar Thomas, the referee said:

"I find that there was no common law marriage between Mary and Oscar Thomas."

According to the referee, the respondents (Thomas and Mrs. Thomas) intentionally testified falsely, and they frequently so accelerated the testimony of other witnesses that I would be fully justified in disregarding all such testimony."

(Continued on Second Page.)

### SOLDIERS AND AIRPLANES RUSH TO W. VA. BATTLE FRONT; MINERS STILL DEFY ORDER

Heaviest Fighting Reported Since Logan County Authorities Tried to Stop "Invasion"—Airplane Bombing Reported.

WASHINGTON, Sept. 2.—Federal troops were ordered into the West Virginia coal fields shortly after 4 o'clock this morning by Major Gen. James G. Harbord, Acting Chief of Staff, and Adjutant General Harris, who remained at the War Department all night to keep a close watch on the situation.

First forces to reach the mine war area will be the 26th Infantry from Camp Dix, N. J., and the 19th Infantry from Camp Sherman. Reports to the War Department early to-day showed that these troops already have entrained. Thirty-two aeroplanes are either on their way or ordered to Logan.

Decision to send Federal troops was reached after the receipt of a report early this morning from Gen. H. H. Bandholtz of Charleston, in which he stated that the miners were not dispersing in accordance with the command of President Harding.

"I am satisfied the miners will not obey the President's proclamation," Gen. Bandholtz wired. "I request that Federal troops be sent immediately."

It is understood that the troops are going into the coal fields upon the request of Gov. Morgan, West Virginia, and that for the present President Harding will not proclaim martial law.

Federal troops from four camps, numbering approximately 4,000 men, were at noon to-day either en route or in readiness to move to West Virginia to enforce the decision of the Federal Government to restore order in the coal fields.

The first of the Federal forces are expected to reach the trouble area late to-day. All modern war equipment will be at the command of Bandholtz and will be sent if necessary. A squadron of aeroplanes will be used for reconnoitering purposes, and machine guns and tear gas are available for any emergency.

The troops will stay in the war zone until complete order is restored. Preparations have been made to supply them with sufficient provisions for any period of occupation that may be necessary.

Orders issued to the 15th Infantry direct it to report at Charleston. The Nineteenth will go to St. Albans. Early last night it appeared to War Department officials that Federal intervention would be necessary. Reports clearly showed that the miners were not dispersing and under the President's proclamation only one course was open to the Federal Government. The actual ordering of troops to the coal fields was delayed long past the time limit of noon yesterday fixed by President Harding for the voluntary dispersal of the miners' army in the hope that eleven hour attempts of Gen. Bandholtz and union leaders to induce the men to return to their homes would be successful.

Gen. Harbord and Harris retired shortly after 4 o'clock, after having issued complete orders for the enforcement and movement of the troops. Gen. Bandholtz's message, sent shortly after midnight, on which the troop movement was ordered, was given out by the War Department, as follows:

"Investigators returned about 11:30 to-night. The invaders have not obeyed the President's proclamation and there is no apparent intention to do so. It is therefore recommended that the troops now hold in readiness be sent to West Virginia without delay."

An earlier communication from Gen. Bandholtz said: "It is believed that the withdrawal of the troops will result in the restoration of order in the coal fields."
